

Create an active learning environment with software tools and creativity kits!

Tech4Learning has introduced two new Imagination Suite options for New York City Schools— the Elementary and Secondary Editions!

Elementary Imagination Suite

The Elementary Imagination Suite (which contains Pixie, Frames & ImageBlender), provides a platform for even the youngest students to create artwork, animations, and share their productions online.

Elementary Imagination Suite (grades K – 5)

Single	5 License Pack	35 License Pack	Unlimited Site License
800121996	800122003	800122011	930871049
\$87.55	\$316.60	\$1,444.50	\$4,360.22

Secondary Imagination Suite

The Secondary Imagination Suite (which contains Share, Frames & ImageBlender), provides image editing and illustration tools, combined with web authoring, to create a comprehensive tool set for 21st century literacy.

Secondary Imagination Suite (grades 6– 12)

Single	5 License Pack	35 License Pack	Unlimited Site License
80012202X	800122038	800122046	800122054
\$87.55	\$316.60	\$1,444.50	\$4,360.22

Pixie® 3

The canvas for your creativity

Pixie is exciting creativity software you can use to share ideas, imagination, and understanding through a combination of text, original artwork, voice narration, and images. Whether you work alone or in a group, Pixie is the only canvas you need.

Pixie helps students:

- Create original artwork with fun and easy-to-use paint tools.
- Complete and build multi-page curriculum activities.
- Collaborate in real-time with others to develop team projects.

Share™

Authoring for the 21st century

Share makes creating interactive presentations, PDF and Flash® files, and web sites easy and fun. Share lets students combine text, graphics, original illustrations and animations, movies, and interactivity to demonstrate understanding and mastery.

Share helps students:

- Develop 21st century skills
- Construct knowledge from curriculum content
- Showcase learning artifacts

\$43.96	\$152.00	\$700.00	\$2,500.00		\$27.20	\$92.00	\$420.00

Frames™ 4

Everyone has a story to tell

Frames helps students create stop-motion animation, claymation, and digital storytelling. Students can use Frames to create movies, animated GIFs, and Flash animations to share their ideas and stories with the world.

Frames helps students:

- Showcase their knowledge using a relevant, popular medium.
- Combine original art with writing, narration, and music to tell stories.
- Easily add sophisticated effects like chroma key and onion skin.

K12Share®

Secure online hosting for projects created in Share and Pixie 3

K12Share is Tech4Learning's safe, online service for publishing student work created in Share and Pixie 3. Using K12Share is easy! You can publish and manage your work without ever leaving the program. Simply choose K12Share in the Publish dialog and your HTML, Flash, or PDF file is uploaded instantly with a unique URL you can share.

K12Share helps students:

- Provide a safe and secure place to publish their work.
- Host all their projects in one central location.
- View their work from any location.

Wixie™

Create, Communicate, Celebrate

Wixie is an online authoring tool students can use to construct knowledge and communicate ideas. Students can use Wixie's paint tools, text options, clip art, and voice recording to develop materials for print, online storybooks, and Flash animations.

Wixie helps students:

- Create online - anytime and anywhere
- Work through activities that support curriculum goals.
- Share ideas through print, web, and Flash files.

ImageBlender®

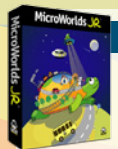

Make your digital images look great

ImageBlender is a powerful image editor that anyone can use. Save time with ImageBlender's straightforward paint tools and image options. Create stunning images with effects and layers that are truly easy to use. Adjust your digital camera photos to look just the way you want for your multimedia projects, presentations, and web pages.

ImageBlender helps students:

- Create original masterpieces with powerful, easy-to-use tools.
- Create stunning images using layers and effects.
- Crop, resize, and optimize digital camera photos.

Micro Worlds Jr.

Pre K - 4

Put your child in full control of learning with Logo programming using simple point & click operations, and friendly symbols. Encourages children to explore ideas such as numbers, geometry, patterns & movement.

Micro Worlds EX

Grade 4 & Up

Provides a Logo programming environment for students to explore and test their ideas by creating simulations, experiments, interactive multimedia stories, and whatever they can imagine!

Micro Worlds EX Robotic

Grade 4 & Up

Utilize Logo programming capabilities for the LEGO Mindstorm® NXT and LEGO RCX® Brick, and the Cricket robot. Students become scientists as they plan projects, construct models, and EXPLORE BIG IDEAS.

Clay Animation Kit

Creativity starts here

With Frames™ as the foundation, the Clay Animation Kit helps students showcase knowledge using a fun and creative medium. Your students will love working on cross-curricular group projects that incorporate writing and technology skills that can be integrated into any grade or subject matter.

Recipes4Success™

Your online training and technology resource

Recipes4Success supports technology integration, providing tutorials and just-in-time references for common classroom software titles, as well as a wealth of handouts and online tools that support effective technology work.
