

# Tech4Learning Software Maintenance Agreements

## Create predictability in your budget and ensure your software is up-to-date

### What is maintenance?

Software maintenance for Tech4Learning products is an annual fee for each license you own that ensures your schools always have access to the latest versions of Tech4learning software tools.

### Benefits of Maintenance

#### Don't miss out on great new features!

Tech4Learning regularly upgrades our software. An current maintenance agreement ensures your teachers and students can take advantage of new features and improvements as soon as they are available.

#### Create predictability in your software budget.

Purchasing maintenance is a cost-effective way to remove the unpredictability normally associated with software upgrades. By budgeting for a low-cost annual agreement, you can control expenditures and ensure that you always have access to up-to-date releases.

#### Save money.

You've made an investment in Tech4Learning software tools... maximize that investment with the purchase of a maintenance agreement. Schools that purchase software maintenance, rather than purchasing updates when they are released, save an average of 42%.

#### Install new versions on your schedule.

A maintenance agreement gives you the peace of mind that the latest version will always be available to you when you plan to upgrades or image computers. Even if your agreement lapses, you are licensed for any version upgrade released prior to the expiration of the agreement.

Product	12-Month Maintenance*				Requirements
	5-24	25 - 99	100 - 499	500 +	
Frames™ 4	\$7 <sup>00</sup>	\$4 <sup>50</sup>	\$4 <sup>00</sup>	\$3 <sup>50</sup>	<b>Software maintenance agreements must be:</b> <ul style="list-style-type: none"> <li>• Purchased at the same time as the software licenses</li> <li>• Purchased for all licenses covered by a single registration code</li> <li>• Renewed prior to the expiration date</li> </ul>
ImageBlender™ 3	\$6 <sup>50</sup>	\$4 <sup>00</sup>	\$3 <sup>50</sup>	\$3 <sup>00</sup>	
Twist™	\$6 <sup>50</sup>	\$4 <sup>00</sup>	\$3 <sup>50</sup>	\$3 <sup>00</sup>
