

	<p>Add text on an image or graphic with different fonts, styles, size, color, and anti-aliasing</p> <p>Group/ungroup objects on a canvas</p> <p>Align objects on a canvas</p> <p>Select colors from an image/graphic to use in another image, shape or text</p> <p>Save an image in a format that preserves layers for future editing</p> <p>Save the image/graphic as a gif with a transparent background</p> <p>Save the image/graphic as a jpg</p> <p>Flip/rotate an image/graphic</p> <p>Distort an image/graphic (ex. Alter the shape for perspective)</p> <p>Alter a portion of an image/graphic by digitally painting, smudging, blurring, airbrushing, blurring, erasing, etc.</p>	<ul style="list-style-type: none"> <li>•</li> <li>•</li> <li>•</li> <li>•</li> <li>•</li> <li>•</li> <li>•</li> <li>•</li> <li>•</li> <li>•</li> </ul>
Professional Development	Recipes4Success online professional development from Tech4Learning is available to all eMINTS teachers as part of the eMINTS program.	

Tech4Learning Products	
Pixie	A creativity tool to match the potential of young minds. Pixie combines paint tools with text options, clip art, voice recording, and standards-based curriculum activities, helping students build 21st century skills as they develop podcasts, online storybooks, videos, and Flash animations.
Share	Share makes it easy to create interactive presentations, PDF and Flash® files, and web sites. Share lets students combine text, graphics, original illustrations, animations, movies, and interactivity to demonstrate understanding and mastery.
ImageBlender	Make your digital images look great. Create stunning visual images with effects and layers that are truly easy to use. This powerful image editor gives you the control you need to get your images looking just the way you imagine them, with effects and tools that are right at your fingertips.
Frames	Everyone has a story to tell. Frames helps students create stop-motion animation, claymation, and digital stories. Students can use Frames to create movies, animated GIFs, and Flash animations to share their ideas and stories with the world.
Twist	Twist helps students easily create vector graphic images. Perfect for art projects, designing logos for web sites, creating characters for animation, or creating backgrounds for a multimedia project, Twist brings students' imaginations to life.
